WARNING

A variety of warning such as
High temperature, Blocking, Low power

P-SH100 P-SH200

• CE certified

• Light weight and comfortable

• High quality ADF providing a desirable vision

• Various warning settings

Main technical characteristics

	Airflow velocity	• 170L/MIN, 200L/MIN, 230L/MIN	
	System	• Automatic detecting and controlling system provides constantly stable clean air	
	Switch	• 3 levels of airflow control • On/off switch • Automatic shutting down if unused for 30 mins	
	Liquid crystal display	• Airflow level and data • Battery life • Filter loading status	
	Warning	• Low battery • Jammed filter • Airflow jammed causing low airflow • High battery temperature	
	Working noise	• Max.73dB	
	High filter efficiency	• 99.996% @ 0.185um	
	Filtration level	• TH3 PR SL	
	Weight	• Complete unit 1370g	
	Battery operating time	Standard Battery	Heavy Duty Battery (Optional)
		• Level 1: > 10h	Level 1: > 15h
		• Level 2: > 8h	Level 2: > 12h
		• Level 3: > 6h	Level 3: > 10h
	Charging time	• 3.5h	5h
	Charging frequency	• ≥ 500	
	Operating temperature	• - 5° C ~ + 55° C	
	Certificates	• CE EN 12941.1998 + A2:2008	

Battery Charger Organizing Stand

Battery Charging Stand

Battery Charging Stand provides 6 charging positions allow 6 batteries to be charged simultaneously, saving charging time and improving work efficiency. The charging stand works with any standard power supply.

High capacity battery provides more than 10 hours of operating time at the highest airflow of 230L/min while remain the same size and weight as a standard capacity battery.
