

Smarter Sharper. More Intuitive.

Crystal-Clear Display

Upgrade from 800×600 to 1024×600 screen resolution – sharper visuals for precise diagnostics.

Touchscreen Convenience

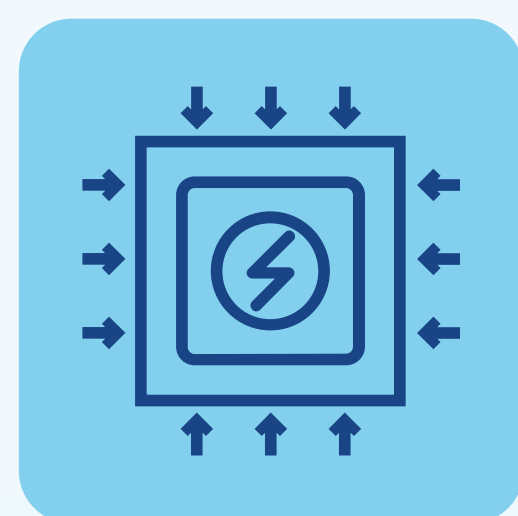

From button-operated to fully touch-enabled interface – faster, smoother interactions.

Streamlined Input

Goodbye bulky keys. Software keyboard enhances user experience and reduces clutter.

Compact Yet Powerful

Sleeker form factor for easy mobility – ideal for modern clinics.

Extended Time Constant

Enjoy enhanced signal stability with $\geq 10s$ time constant vs traditional 3.2s.

WHY CHOOSE ECG-MAX12?

Precision-engineered for the future of cardiac diagnostics – compact design, responsive touch, and advanced screen resolution combine for a new standard in ECG.
